The Home Energy Rating System (HERS) is the industry standard by which a home's energy efficiency is measured. Created by the Residential Energy Services Network (RESNET), the HERS Index is the nationally recognized system for inspecting and calculating a home's energy performance. With one number, homeowners and buyers can tell how energy efficient a home is.

The LOWER the score, the BETTER the energy performance.

Granite Ridge Builders is committed to having *all* of our homes HERS® Index Rated!

Granite Ridge Builders is continually improving its average HERS® Index Score!
